

FROM CONCEPT TO COMMERCIALIZATION

Contract Manufacturing That Creates and Saves Lives

Life science breakthroughs only matter if they reach the real world. Drummond Scientific helps innovators in diagnostics and medical devices scale faster with capital-efficient, high-throughput manufacturing—embedding manufacturability into early design and evolving alongside your growth.

A True Manufacturing Partner

Proven Process

We ensure seamless development from concept to production, delivering speed, precision, and reliability at every stage.

Scalable by Design

Our in-house automation scales from one to millions of units with no additional infrastructure required.

Speed Without Sacrifice

Fast timelines without compromising quality, thanks to expert automation and a vertically integrated facility.

Capital-Efficient Growth

Our venture manufacturing model reduces upfront investment, helping you conserve capital while moving fast.

Regulatory-Ready

FDA-registered and ISO 13485:2016 certified for compliant production from day one.

Proven Manufacturing Results

Increased Speed to Market

Industry-leading Uptime

500+M Units Produced Annually

Platform Leverage

Drummond isn't just a manufacturer—they're a true partner. Their deep expertise in design for manufacturability has been invaluable as we develop and optimize our DX 100 cartridge. From the earliest stages, they've worked closely with our team to ensure our cartridge will be ready for scalable, high-quality production.

Nancy, CEO, AmplifiDx

Ready to scale smarter?

Let's talk about how our venture manufacturing model brings your product to life.

Who We Help

Early Stage Innovators

Navigate design and manufacturability with strategic guidance.

Scaling Startups

Agile manufacturing for lab-to-market acceleration.

Established Brands

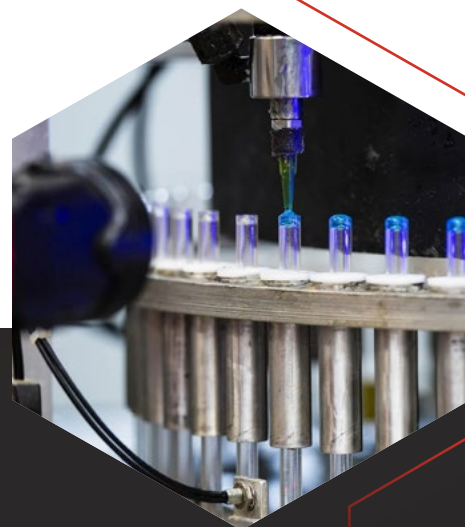

Extend internal capacity with specialized production support.

Our Facility at a Glance

- **100,000+ sq. ft.** U.S.-based facility
- **80+** custom-built automated lines
- **In-house** engineering, quality control, and automation
- **Climate-controlled environments** with humidity regulation, including access to Class E cleanrooms
- **Custom** packaging, inspection, and traceability systems

What We Manufacture

- Point of Care and OTC Diagnostics
- Precision Sample Handling Devices
- Lateral Flow Assays
- In Vitro Fertilization Products
- Laboratory Equipment & Consumables
- Other Products That Create and Save Lives

Behind the Innovation

Experienced, collaborative, and hands-on—our team is your partner from concept to commercialization.
